

Maths

During the opening ceremony of sporting events, such as the Olympics, each country will parade with their country's flag. Look at the flags on *slide 3*. Which 2D shapes can you spot in the flags? Design your own flag using 2D shapes. Remind yourself of [2D shapes](#) by listening to the song.

Learning to tell the time is very important for sporting events. For example, so the referee knows when a match is over or a judge knows the time an athlete has completed a race in. Watch the [video](#) on telling the time. Use the interactive [clock](#) to make times to the hour and half past the hour or try the following [game](#). Look at the pictures on *slide 3* showing events for a school sports day. Work out when each event starts.

Finally, try the dart board problem on *slide 3*.

P.S.H.E

Listen to the [story](#) 'GRRRR!' by Rob Biddulph. Fred the bear realises there are more important things than winning, such as friendship. Make a list of all the things you want to do when you can see your friends again. Or, you could write a letter to one of your friends thanking them for being such a good friend.

Year 1

Home Learning Project Week Beginning: 25.05.2020 Theme: Sport

History

There are many great sporting events across the world. Look at The quiz on *slide 4*. Do you recognise any of the sports/ sporting events? You can also watch the [video](#) of the Olympic opening ceremonies through time.

I have created a sporting quiz using the website and app Kahoot! Use the link to [play](#) or the game pin: 04860239. The deadline is Friday at 12pm. Play along and see how many questions you can get right.

Art and Design

Visit the author Rob Biddulph's [website](#) for his amazing draw along videos. There is even a draw along for Fred the Bear!

English

- Look at the definitions of verbs and nouns (See *slide 2*). Use them to write your own sports themed sentences.
- Listen to the [Story](#) 'Olympig!' by Victoria Jamieson. Draw Boomer's efforts in each of these sporting events: sprinting, weightlifting, hurdles, wrestling, diving and gymnastics. Write a sentence for each of your pictures.
 - Which sport would you like to take part in? Write a letter to Boomer to explain which sport you would like to participate in.

Computing

Choose a sporting event to research (see *slide 4*). Find out when it first started, who has competed from our country, and any world records set. You could also research a famous sports player such as your favourite footballer.

P.E.

To find out more about sports or for activities and games visit the following [website](#) or you could join along with [Joe Wicks](#) with his daily PE lessons.

Music

The National Anthem is sung before many sporting events. Listen to children across the UK singing our [National Anthem](#).

English

Verbs and nouns – definition

VERB

A **verb** is a word that shows actions. The action can be physical or mental.

run popped
speak dream
think

NOUN

A **noun** is a word that names a person, place, thing or idea.

Person : **grandma**
Place : **forest**
Thing : **wolf**
Idea : **joy**

Y1 Additional Resources

Slide 2 Week Beginning: 25.05.20

Theme: **Sport**

Verbs

cheer
kick
defend
sprint
play
race
clap
flip
jump
stop
cycle
throw
hit
dance
twirl
slide
watch

Nouns

ball
net
field
court
boot
trophy
crowd
racket
race track
pitch
mat
bench
finishing line
athlete
gymnast
football player
tennis player

Spellings

Watch the [video](#) on using the suffix **-ed**. Verbs will need to end in **-ed** if you are writing about something that happened in the past.

I pulled the rope.

I watched the egg and spoon race.

We kicked the ball.

Example: The **athlete** **jump**ed over the **hurdle**.

You don't just have to use the nouns and verbs here – you can think of your own as well.

Y1 Additional Resources - Slide 3

Week Beginning: 25.05.20

Maths

Flags from around the world

Spot the 2D shapes

2D Shape Word Mat

Create your own 2D shape flag.

Maths

Sports day – What time does each event start?

Maths

Dart board Problem

Look at the dart board.

A player throws **two darts**.

The first dart hits a number **greater than 12**.

The second dart hits a number **less than 8**.

Find all the possible totals they could have made and write them in your workbook.

For example:

Dart one could have landed on 13 and dart two could have landed on 7.

$$13 + 7 = 20.$$

Watch [2D shapes](#)
