

Maths

- Have a look at [BBC Bitesize](#) for Y3. There are some fabulous videos and activities! Each lesson is set out in an easy to follow lesson – begin where you feel comfortable, go back to earlier maths lessons if you need to - and all resources that you might need are provided – if you don't have a printer to print the worksheet, you can always write your answer down in your workbook or a piece of paper.
- Don't forget to keep playing on [Times Tables Rock Stars](#) to practice your 3, 4, and 8 times tables. I'll be checking up to see how you're doing 😊!

Year 6 Home Learning Project Week Beginning: 25.05.20 Theme: Sport

Art and Design

Build your own football game!!

As football is off the TV at the moment, why not create your own football pitch and stadium 😊! Use [this website](#) as a guide, but try to be creative with your stadium!

PE

Hold your own Olympic games!!

Have a look at [these suggestions](#) for inspiration! You can do as much or a little as you want, but whilst the weather is nice, perhaps you could select some of your favourite events (modern or ancient 😊) to compete in outside. I think I would have a go at some discus (frisbee) throwing and maybe challenge Mr Bridge to a running race :-0! Go wild guys and have some fun with this one!

Science

Why is being active important?

Think back to our science topic about the body – we learnt about nutrition and food groups, the skeleton and muscles. Also remember, this is when Alex came in to talk to us about eating healthily and being active. Have a look at [BBC bitesize](#) to refresh your memory first – the sections about **Skeletons and Muscles, then Health.**

Then design a poster persuading people to be more active, linking in your learning about the body. Perhaps suggest some activities that the reader might want to do and explain how it will benefit them. Also suggest types of food they might want to eat to give them energy and for growth and repair of muscles!

English

- Have a look at [Pobble 365](#). There are a number of different activities that you can do linked to a simple picture – answer questions, write SPaG related sentences and even write a story. If you don't like the picture for that day you can use the arrow at the side to find a picture that inspires you 😊 - there are some fabulous ones!
- Practise your Year 3/4 **spellings** and **spelling patterns** using [ictgames](#) look, cover write, check game. Simply click on the Y3&4 tab once you have clicked on the game.

History

Why do we have the Olympic games?

Investigate the origin (where something began) of the Olympic games!

When and where was the first Olympic games? Are the events that we have at the modern Olympic games the same or different to those at the first Olympics?

Are there any traditions from the ancient Olympics that we still have today?

If you were going to be an Olympian, which event would you compete in?

Strike a pose to show the event that you would compete in. Get someone to take a picture of you and see if other people can guess your event!
