

What will we be learning this term?

In English we will be reading a book called Callum's Incredible Construction Kit to help us improve our grammar and sentence structure.

We use the White Rose Mastery Scheme of work as the basis for our maths curriculum at Dane Bank Primary School. In the Autumn term, the children in Year 2 will learn; place value, addition and subtraction, money and multiplication and division.

Our science work will be based around a question- How can we grow our own plant?

Our History work will also be based around a question- How did the first flight change the world?

Snack

A healthy snack of fruit can be bought at playtime. The cost is 20 pence per day. If you wish, you may send in £1 on Monday to cover the cost for the whole week.

Please **read** with your child every night and also fill in and sign the home/school record. Also, make sure that your child brings their bag to school everyday.

Welcome back to school! I hope you all had a lovely, relaxing summer holiday!

Year 2

Please remember that we are always available to speak to you if you have any questions or concerns.
Thanks,
Mrs Leigh and Mrs Wilson

PE kits are needed every week - the children will have a lesson on Thursdays. Children must come into school wearing their PE kits.

Homework is given out every Friday on Microsoft Teams. It must be returned to school on the date set. Children who complete their Homework will be given Golden Time but those that have not completed it, will do it during this time. We ask that parents read and practise spellings with their children as often as they can- the Year 2 spellings are uploaded onto Microsoft Teams.

Microsoft

Phonics Screening checks will take place in December 2021. All children will be required to take this informal test.

In class 2 we do not have show and tell, however any certificates or awards can be shown in the Friday assembly.
