

Friday 12th January 2024

Dear Parents and Carers,

Year 6 Rock Pooling Experience

I have booked a rock pooling workshop for Friday 15th March, where a company will come into school and give the children some fabulous hands-on experiences. The aim is to bring a British rockpool experience to our classroom with a hands-on educational experience headed up by their knowledgeable marine rangers, where the children are encouraged to approach the rockpool and interact with the creatures.

Some of the creatures your children will meet and be able to touch include:

- Shore Crabs
- Hermit Crabs
- Spider Crabs
- Common Starfish
- Various Sunstars
- Bloody Henry Starfish
- Beadlet Anemones
- Mussels
- Sea Urchins
- And others depending on seasonal availability

This is just a gentle reminder that the total cost of the experience is £11 per child, that needs to be paid by Friday 8th March 2024. You can choose to pay all in full or pay in instalments, either way it can be paid using our online payment system. If we don't receive all payments, we run the risk of having to cancel the experience and lose the deposit that we have paid.

I realise that it is still a while off yet, but we need to ensure that the cost of the experience is covered. Please contact us if there are any problems with payment.

Kind regards,

Mrs Bridge
